

# Kawartha Lakes Flying Club COPA Flight 101 Lindsay On.

Minutes of January 9, 2019 Meeting

Start - 1900hrs End - 2035hrs Attendees: 22

Bob Burns welcomed those attending and brought our attention to new faces (who became new members). Welcome Bill Thistlewaite – Bobcaygeon (tailwheel aircraft owner), Garth Post – Trent Lakes (tailwheel aircraft owner), and Jim VanHolteren – Lindsay.

The Christmas dinner/dance details revealed a pleasant \$900.00 profit to be deposited in the KLFC bank account. Everyone seemed to be pleased, if not enthralled, by the ambiance of the Lindsay Golf and Country Club and the band's eclectic presentation of slow and fast tunes was well accepted but there were comments about how loud the volume was. The club has re-booked the LG&CC and a further look into other music sources will be conducted to try to satisfy the masses. Any constructive input is welcome. By the way, the 2019 Christmas dinner/dance is booked for December 7, 2019.

Loomex is supplying a coffee machine for the pilot lounge and would like KLFC to manage the supplies and general cleanup regarding the use of aforesaid equipment. The club will realize the profit which can be added to the COPA for Kids effort. Members can be of assistance by putting any used cups in the garbage that may be left by visitors. A "pay it forward" idea for the pilot lounge is to bring your unwanted sunglasses (don't like the frames or bought a newer pair) and deposit the unwanted shades in a bowl for pilots who may have forgotten to bring their sunglasses - - or for anyone who needs a pair of sunglasses.

Members have suggested that we have a crest or a badge made that can be attached to a shirt or jacket. The club is asking for your input. Everyday Specialties estimate they can produce them for about \$5.00 each (round, rectangle or square). Your input would be appreciated.

A video of COPA for Kids 2016 was shown and appreciated by those present.

A free first year membership is offered to those who has not been a member before. Please spread the word.

Coffee break

Brian Liebusch – Nav Canada, our guest speaker, was introduced and he delivered a most interesting and instructive talk regarding winter flying with subtopics of runway surface condition changes, snow squalls or lake effect snow, icing and Internet filed flight plans.

Motion to adjourn, Bill Fry, 2nd Jim Baldwin CARRIED
